the central business park

intellia

the central business park

'All work and no play makes Jack a dull boy.'
The proverb gave birth to a big idea, in which one may nurture the age old Latin saying ...
'Mens sana in corpore sano' ... A healthy mind in a healthy body. A dream workspace that people who work will long to belong to. A space that will ensure everlasting happiness to every one ... employer as well as employees. Happiness, after all, is a state of mind that will be nurtured well ... at **Intellia**

Why Business Park

A business park or office park is an area of land in which many office buildings are grouped together. All the work that goes on here is commercial, not large scale industrial or residential. The first office park opened in Mountain Brook, Alabama, United States, in the early 1950s to avoid racial tension in city centers.

Suburban office parks like the one in the Boca Corporate Center & Campus in Boca Raton, Florida, United States, are usually lushly landscaped so that a peaceful workspace is created.

That's what Wikipedia would tell you if you look up on the Internet. Well, **Intellia**, the **central business park** is much more than just that.

Waterbody and sitting area

How is Intellia

Intellia, the central business park, an intelligent workspace to balance work and play. The Park will be spread around about 340 cottahs with 234 cottahs of open space. It will have about 7 lakh square feet area to be occupied.

With greens, natural waterbodies, conference centres, a future-ready business club, jogging tracks, walkways, Vaastu compliancy for working spaces, food courts, office essentials stores, solar powered lights in common areas ... Is poised to be the only such business park in the heart of the city.

It promises to alleviate commuting to and from workspaces on the fringes of the city or further away. It will also break the monotony of hovering around the Kolkata office jungle called Dalhousie Square.

Where and What is Intellia

Where

22 Gobra Road, Kolkata 46. Off CIT road. Near Park Street.

Location is the key here with easy connectivity via **Railways...** Park Circus and Sealdah stations. **Roads and flyovers ...** Maa flyover, AJC Bose Road, CIT Road. The Sealdah **Metro** nearby. In **close proximity ...** just a few minutes to Quest Mall and a minute to Park Circus. 2 minutes to Moulali.

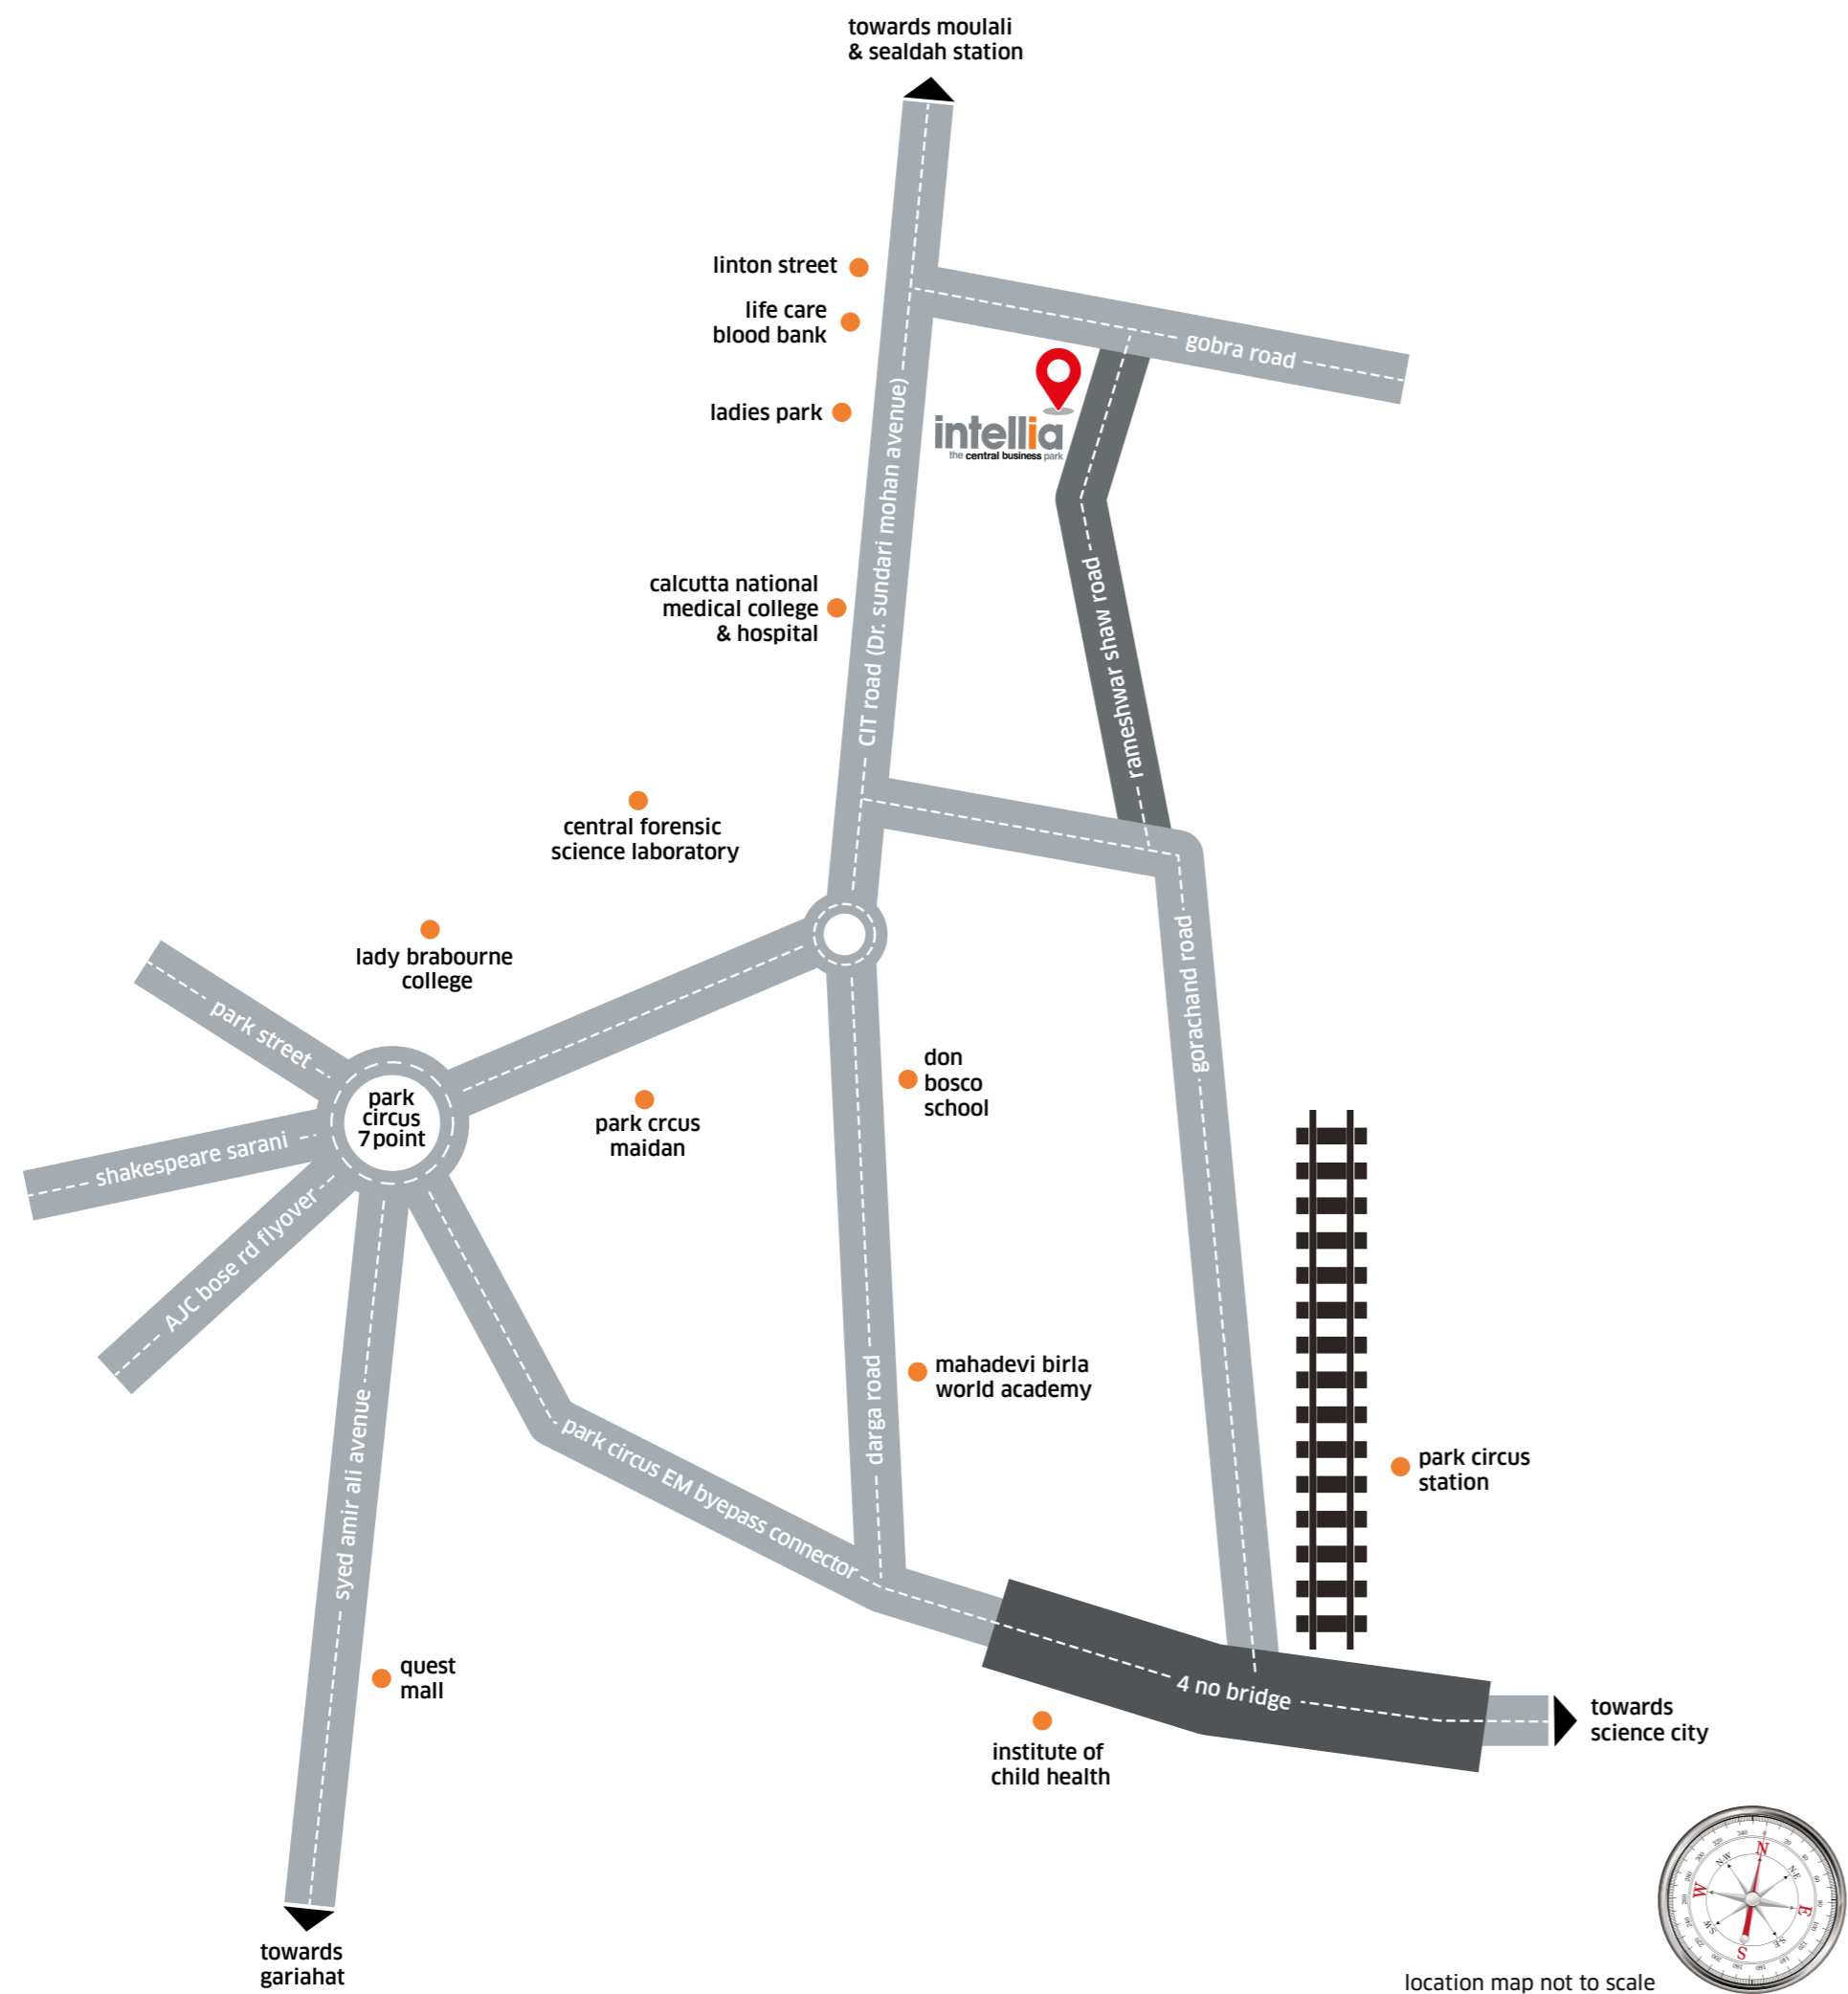

What

An **A-grade intelligent business park ...** with an **ultra-luxury business club** that will be managed like a 5-star hotel.

A modern elevation with a grand double height AC ground floor lobby with almost 12 feet ceiling height for offices. **A platinum rated 'A' grade first-of-its kind international standard business park in the centre of the city** poised to provide a better work environment for both the employers and employees for enhanced productivity and a balance of work and play environment.

Intellia will have International standard landscape designed by **Tectonix** of Thailand. A natural waterbody and large outdoor meeting and co-working spaces to hangout and network with peers.

Indian Green Building Council Features

Green buildings or properties can have tremendous benefits, both tangible and intangible. The most tangible benefits are the reduction in water and energy consumption right from the first day of occupancy. The energy savings could range from 20 to 30 % and water savings around 30 to 50%. Intangible benefits of green building include enhanced air quality, excellent day light, health and wellbeing of residents, safety benefits and conservation of natural resources.

Rainwater harvesting

A rainwater harvesting system installed at **intellia** would collect the rainwater from the roof and ground floor areas and store them to reuse it for gardening and landscaping. This will not only charge and enhance groundwater levels and reduce water flow into drains but also reduce the potable water required for the project, thereby making it water efficient.

Rainwater collection

Solar powered lights in common areas

Solar power lighting for common areas

Intellia will have solar panels. The energy generated from them will be able to cater to 1% of the electrical power load for the common areas of the project to make it energy efficient.

Virgin greens

The site will be restored to virgin greenlands by adequate landscaping that will offer occupants ample space for relaxation and play.

Waste and garbage disposal

Intellia will recycle the waste water and reuse it for flushing in order to reduce the usage of potable water. The organic waste converter at **intellia** will help manage waste in a proper way and convert the kitchen and garden waste to manure and use it for the landscaping.

Limiting water waste

Low water flow fixtures specifically designed to limit water waste will help residents reduce water consumption.

Electric vehicle charging points

With rising fuel prices there is and will be a propensity to shift to renewable resources for vehicles. Which is why, the usage of electric vehicles are on the rise. A platinum rated property will have to have electric vehicle charging points to provide occupants the provisions to charge electric vehicles at an extra cost.

Electric vehicle charging point

NB platinum pre-certified

Energy efficient lights in common areas

Led lights that consume almost 30% less electricity in comparison to other lights will help **intellia** reduce the energy consumption for the units making them energy efficient.

Adequate light and fresh air

Intellia will have windows that are adequately sized to allow a lot of daylight and fresh air. Better indoor environmental quality will protect health, improve the quality of life, and reduce stress. In a way, it will also escalate the the resale value of the property.

LED lights in common areas

Ample daylight through large windows

Facilities

Intellia

Multifunction lawn
Food court
Floating cabanas
Open co-working space
Waterfront sitting area
Waterfront amphitheatre
Waterfront cafe
AC double height decorated entrance lobby

Passengers and service lift in each block
Intercom
Sewerage disposal system
Facility management office with storage area
Convenience store for office
Drivers' lobby / waiting area
Incoming telephone facility at (already) installed intercom common line through epabx
High speed wifi internet facility connection with UPS in common areas
24-hour filtered water supply with water treatment plant
Street lights
Adequate water supply
24X7 continuous power supply

IGBC Features

Rainwater harvesting
Solid waste management
Solar powered facilities
Waste water recycling
Natural daylight and fresh air
Electrical charging points
Energy efficient lights
Low flow water fixtures
Virgin greens

Specifications

Superstructure ~ RCC framework

Walls ~ bricks

Finish ~ plaster finish interiors
paint and plaster finish on exteriors

External façade ~ to be finished with the combination of glass, ACP, texture paints and aluminium windows

Office area flooring ~ bare

Ground floor/lobby flooring, lift fascia, etc ~ marble or granite

Typical floor lobby ~ vitrified tiles / granite

Lift ~ adequate number of high standard high-speed lifts

Power ~ adequate power from local electricity board will be made available from the metre room

Power backup ~ 100% power backup will be provided with amf (auto main failure) panels, housed in acoustically treated enclosures

Communication ~ high-speed connectivity and sufficient bandwidth from reputed government and private players. Telephone exchange with fibre optic cable

Water supply ~ 24-hour water supply

Building management ~ to create productive, energy efficient and cost effective environment through system (BMS) optimisation of system, service and management

Fire safety ~ fire alarm and fire detection system compatible with BMS, adequate water reserve, wet riser in the main staircases and sprinkler system in common areas as per fire safety rules

Sewage treatment plant ~ as per norms

Architects and Consultants

Architect ~ Design Cell

Landscape designer ~ Tectonix Limited

MEP consultant ~ Saent India

Structural consultant ~ SPA consultant
